

# Heritage Clay Tiles Ltd

Yesterdays Traditions Todays Choices Tomorrows Heritage

Available in Medium and Dark Heritage colours the Bat Access Set presents a bat optimised entrance to the under-felt, or to the loft when the under-felt is opened. For use within the roof tiles, the top 'tunnel' tile offers the bat an 18mm high x 165mm long (approx.) tunnel to an entrance hole in the under tiles. This allows the bat to crawl into the roost area.

An advantage of these tiles it provides the maximum amount of natural air flow under the tiles. The carefully designed access, along with this air flow between the tiles and the under-felt, aims to provide conditions where the bats are protected from any extremes of heat.

Heritage also offer ridge tiles with a similar 18mm access cut into the ride tile side, and we can look to manufacture bespoke access tiles to your requirement.
